PROJECTS

AMAZON CLONE

The goal of this project is to replicate the look and feel of Amazon's homepage using basic web technologies like HTML and CSS. The project will demonstrate an understanding of structuring a webpage with HTML, styling it with CSS, and implementing a responsive design**.**

COLLEGE WEBSITE

This college website will be designed to be user-friendly, visually appealing, and interactive, providing all the essential information in an organized, easy-to-navigate format. By leveraging HTML, CSS, and JavaScript, the website will provide an engaging experience for prospective students, current students, and faculty alike.

JUNGLE RETREAT RESORT

The UI should offer a serene, immersive, and easy-to-navigate experience for potential guests looking to explore the resort's offerings, book accommodations, and enjoy the natural surroundings. The design will reflect the retreat's peaceful atmosphere, with elements inspired by nature, greenery, and outdoor activities.
